ON-TOP *PRO*

QUANTUM
LED

PestWest

Innovative, discreet and stylish fly trap; the unique overhead design fits discreetly and easily into new or existing suspended ceilings.

Lowest power consumption, consistent with superior flying insect attraction. Patented installation concept within a suspended ceiling to achieve discreet and efficient fly control: NOW with all the added advantages of the Quantum X LED technology!

The ON-TOP PRO X is fitted with two shatterproof Quantum® X tubes and holds a dedicated LED range glue board.

Matching the tile pattern of ceilings with its square cover, the innovative design avoids the possibility of fly fall-out and will effectively control infestations, even in public spaces.

Therefore, the unit is ideal for convenience stores, supermarkets, petrol stations and all other areas where space limitations and visibility to the public may have previously complicated situating a standard unit.
